

August 26, 2020

Dear families and friends,

As always, our team and I hope this email finds you safe and healthy. I am pleased to report that we continue to remain COVID-free for both our staff and residents. We continue our COVID Surveillance Testing for Employees as directed by the Commonwealth of Massachusetts Department of Public Health on a bi-weekly basis so that we can proactively maintain our COVID-free status.

As you know more than anyone, it has been a difficult few months as our center has battled with COVID-19. While the number of individuals stricken with the virus has decreased dramatically, we know that it is possible we will be dealing with another surge of positive cases in our community.

Our entire team has been at work planning for this possibility, and we would like your input as we continue to refine our strategy to keep all of our residents and staff safe. To that end, we are asking family members and residents to offer any suggestions or comments you feel may be beneficial. We hope to learn from your input what your priorities and main concerns may be.

Your suggestions are greatly appreciated. Thank you for your consideration and stay safe.

Thank you and please stay safe and healthy!

Sincerely,

A handwritten signature in blue ink that reads "Michael Takesian".
